About

Computer Science undergraduate and aspiring **Software Engineer** with hands-on experience in **Full Stack Development and MERN Stack**. Proficient in **Java, JavaScript, React.js, Node.js, Express.js, MongoDB, SQL, REST APIs, Git, and GitHub**. Strong foundation in **Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, and Software Engineering**. Experienced in building responsive web applications, backend services, RESTful APIs, database-driven applications, and scalable full-stack solutions. Strong problem-solving and algorithmic thinking with continuous practice on **LeetCode and GeeksforGeeks**.

Education

Ajay Kumar Garg Engineering College (AKGEC)

Ghaziabad, Uttar Pradesh

B.Tech. in Computer Science and Engineering – CGPA: 8.33/10

2024 – Present

- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Web Technology, Design & Analysis of Algorithms, Object-Oriented Programming, Software Engineering.
- **Class XII:** 92%

Experience

Amroha Police

June 2026

Software Development Intern

Amroha, Uttar Pradesh

- Developed an **AI-powered FIR Assistant** that converts user-provided incident information into structured and organized complaint details.
- Designed application workflows for collecting user inputs, processing information, generating structured responses, and improving overall user experience.
- Implemented application logic using **JavaScript, MERN, REST APIs, data processing, input validation, debugging, and modular development practices**.
- Worked on improving application reliability through structured error handling, reusable components, testing, and maintainable code organization.

Projects

FIR AI Assistant | *MongoDB, Express.js, React.js, Node.js*

GitHub

- Built a full-stack AI-assisted web application using the **MERN stack** to convert user-provided information into structured and organized complaint details.
- Developed RESTful APIs with **Node.js and Express.js** for request handling, input validation, application logic, and structured response generation.
- Implemented a responsive **React.js** interface and integrated MongoDB for persistent storage, following modular and maintainable application architecture.

Explainable Multi-Modal Phishing Detection System Using AI | *MongoDB, Express.js, React.js, Node.js*

GitHub

- Developed a full-stack web application using the **MERN stack** to analyze multiple website and URL indicators and generate an explainable risk assessment.
- Built **Node.js and Express.js REST APIs** to process submitted URLs, evaluate multiple indicators, calculate risk scores, and return structured results.
- Created an interactive **React.js dashboard** to display risk scores, detected indicators, analysis history, and explainable results, with MongoDB for data persistence.

Technical Skills

Languages: Java, JavaScript, Python, C, HTML5, CSS3

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, DOM, REST API Integration

Backend: Node.js, Express.js, RESTful APIs, API Development, Authentication, Authorization

Database: MongoDB, MySQL, SQL, PostgreSQL Database Design, CRUD Operations, Data Modeling

MERN Stack: MongoDB, Express.js, React.js, Node.js, Full Stack Web Development

Developer Tools: Git, GitHub, VS Code, Postman, npm, Linux, Command Line, Debugging, Testing, Version Control

Soft Skills: Problem Solving, Analytical Thinking, Communication, Leadership, Teamwork, Adaptability

Achievements

- Maintained a strong academic record with a **CGPA of 8.33/10** in B.Tech. Computer Science and Engineering.
- Consistently practiced **Data Structures and Algorithms** on LeetCode and GeeksforGeeks, focusing on algorithm optimization, time complexity, and problem solving.
- Built multiple **MERN Stack full-stack applications** involving React.js, Node.js, Express.js, MongoDB, REST APIs, and database integration.
- Participated in hands-on programming challenges and technical problem-solving activities to strengthen **algorithmic thinking and software development skills**.
